INVITATION

Dear esteemed colleagues and friends in nuclear medicine,

It is our great pleasure to invite you to the 2026 Annual Meeting of the Korean Society of Nuclear Medicine (KSNM) and the Annual Meeting of the Asian Regional Cooperation Council of Nuclear Medicine (ARCCNM), which will be held jointly on November 6 (Friday) ~ 7 (Saturday), 2026, at the Convention Hall, B2, Gwanggaeto-gwan Hall, Sejong University.

This year's Annual Meeting of the KSNM has been organized as an international academic meeting in collaboration with ARCCNM. In particular, the KSNM-CJK Session has been prepared to promote academic exchange and collaboration among Korea, China, and Japan, providing an opportunity to share the latest advances in nuclear medicine from each country. We have also prepared the CJK Rising Tigers Session to foster active academic exchange and encourage the growth of young researchers.

In addition, we are pleased to present joint symposia with the Korean Society for Radiation Oncology, Korean Society of Radiology, and Korean Dementia Association. For the Y.W. Bahk Lectureship, we are honored to welcome Dr. Albert J. Sinusas of Yale University School of Medicine, a renowned expert in cardiovascular imaging and therapy. The scientific program will also feature a wide range of topics, including therapeutic radioisotopes, the brain-cervical lymphatic system, and low-dose radiation, along with other timely and diverse topics in nuclear medicine.

We are also delighted to invite you to our Welcome Reception, which will begin at 6:30 PM on Friday, November 6. We hope you will join us for a memorable and enjoyable autumn evening featuring the band "Chun-gi-nu-seol," with Mr. Kim Chun-ki as vocalist, and take this opportunity to connect with colleagues and friends in a relaxed atmosphere.

We greatly appreciate your interest and active participation, and look forward to welcoming you at the meeting in good health.

Sincerely,

Young Hoon Ryu, MD, PhD.
President of the Korean Society of Nuclear Medicine
